THE GREATER AKRON AQUARIUM SOCIETY

WHO ARE WE? We are a local group of aquatic enthusiasts. Formed in 1952, the Greater Akron Aquarium Society is a non-profit, non-commercial organization. Our membership ranges from the beginning hobbyist to the advanced aquarist with many years of experience. The goals of our club are to promote the care, study, breeding and exhibition of aquarium related aquatic life and to promote interest in the aquarium hobby.

MEETINGS: Our meetings are held on the first Thursday of each month at 8:00 p.m. at the Mogadore Community/Senior Center, 3857 Mogadore Road, Mogadore, Ohio. It is located East of Route 532 across from McDonald's in the former post office building. Visitors are always welcome, it costs absolutely nothing to attend a meeting and look us over.

MEMBERSHIP: The cost is only \$7.50 for adults, \$10 for a couple or a family (includes children under 10 years of age) and \$5.00 for a junior membership (10 to 17 years) Membership provides an opportunity to socialize with other that share your interests, a subscription to our bi-monthly magazine, library usage and more.

AGENDA: Our meeting agenda is simple and informal. The meeting will begin at 8:00 p.m. with a short business meeting. Immediately following is the program for the evening which usually lasts about 45 minutes. Our programs consist of a speaker, slide program, movie or perhaps a panel discussion always on a particular subject related to the hobby or various species of fish. Following the program is a short refreshment break. After which the winners of the Bowl Show are announced, the Breeder's Award Program fish are auctioned and tickets are drawn for the raffle.

THE BOWL SHOW: Each month members can bring in fish for specific classes to compete for first, second and third place awards. The charge for each entry is only \$.25. Members also compete for annual awards by accumulating wins throughout the year.

BREEDER'S AWARD and HORTICULTURE AWARD PROGRAMS: members can receive recognition for spawning species of fish or propagating aquatic plants. All that is required is to turn in a minimum of six fry from the spawn that are between 30 and 90 days old. Members earn certificates for each species and can work towards plaques in different categories.

EQUIPMENT RAFFLE: The raffle table has such items as tanks, fish food and aquarium accessories that are donated by national manufacturers, area dealers or purchased by the Society. Tickets may be purchased by anyone attending the meeting. Save your losing tickets for the Christmas Party raffle.

ANNUAL SHOW: The Ultra-Aqua show is held during the summer at the Tallmadge community Center. This has become one of the largest all-species tropical fish shows in North America. It is an international gathering of hobbyists to display their fish in class competition, talk fish and to learn about the hobby from each other.

TANK TOPICS: is published on a bi-monthly basis for the members of the Greater Akron Aquarium Society. Articles and comments for this publication are welcome and encouraged. Such articles are to be submitted no later than the board meeting prior to publication. All articles may be reprinted as long as the author(s) and GAAS are given proper credit and two copies of the publication containing the reprint are sent to GAAS. Please send any correspondence regarding this publication to:

Editor's Message

Dave Williamson

Well hello all, we've survived yet another show (more or less intact) and you're here reading the annual results issue. Hopefully you were there and enjoyed your experience and want to do it again next year! But anyway, there are a whole crew of folks who need thanked for all they did to make this year's show yet another success. I'm sure this isn't an exhaustive list of everyone who lifted a finger over the weekend, but just those I noticed. First off, there are Bud, Jeff & Don, all putting in time at the show registration computer. Then there is Bill and his crew working their magic with the food. How about Rich, Phil and various other helpers packing up all those donation fish? Of course we had judges: Pat, Joanne, John, Eric & Regina. Auctioneers included Joanne (again!) Ken (2 of them!) Don, Eric (yeah him again too!) and Scott. Bud B., Matt, Christina, Nicole and Mikayla man-

ning various parts of the auction registration desk. Then last but not least those who came to help with the set-up tear-down and where ever else they were needed such as Dave G. and the kids, Bob (two of them too!), Shawn, Wayne and any others I may have forgotten. The important thing is that we have a good group that pull together to get things done. Keep up the good work!

You'll notice that there are less of the normal things such as articles that you usually find in this issue to allow for the show results and the pictures supplied by our historian, Russ. It made a lot more sense to use the current stuff and worry about the rest later.

OK, I'll be keeping this short (I can fit in a couple more pictures that way!) and I'll see you at the meeting!

BAP/HAP Report

Wayne Toven

The annual Ultra – Aqua show has come and gone, from what I saw everything went pretty smoothly, we had lots of help for set up and tear down. We had more entries than last year, which is a good thing; I however had fewer entries than last year, not a lot just a few. It's a lot of work when you have to do everything yourself, maybe next year I get back over 50 entries. Anyway we had a lot of fish and plant donations, some were for sale at the Saturday swap meet, some of the new and rare fish went into the raffle, and the rest went into the auction Sunday. With all of those fish and plants, there should hopefully be a slight increase in the spawns and plant propagations for the club's programs (BAP & HAP). I've got several species of fish spawning in my outdoor 110 gallon tubs, but unfortunately I have previously turned most of them in for our BAP. Most of my water plants have also been submitted to the HAP, it's getting hard to find new plants that I have not had in the past or still have presently. Things picked up a bit for both the Breeder Award Program and the Horticultural Award Program in the past two months. Even though we didn't have a monthly meeting in July there were more spawns turned in at the show auction than any other month this year. There were 7 spawns turned in at the auction, then in August there were 2 spawns and 10 HAP submissions, most of which were flowerings; not a big surprise at this time of year. Let's try to keep this momentum going through the rest of the year and see if we can beat last years BAP/HAP totals. We also had one of our member's reach **Master Breeder** status for **Barbs, Minnows, & Rasboras**, congratulations go to **Joe Reich**.

July 2013

BAP

Species	Common name	Class	Points
Joe Reich			
<i>Clea Helena</i>	Assasin snail	Aquatic animal	5
<i>Poeciliopsis prolifica</i>	Black stripe livebearer	Livebearer	5

Bowl Show & Special Activities

Don Youngkin

Because of having no meeting in July, there was no bowl show in July. Wayne is still leading in the points lead for the year. All are invited to join the fun and bring in entries.

August

AO New World Cichlids

1st – Todd Zettler - Pink Convict Cichlasoma sp.

2nd – Wayne Toven - Laetecara Thayeri

Amphibians

1st – Dave Williamson - Axolotyl

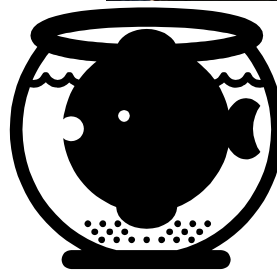

2nd – Wayne Toven - Lesser Siren

Bog Plants

1st – Wayne Toven - Imperial Taro

2nd – Wayne Toven - Hawaiian Eye Taro

3rd – Wayne Toven - Water Hemlock

Annual Point Totals

Wayne Toven	102
Jeff Plazak	71
Don Youngkin	7
Dave Williamson	5
Todd Zettler	5
Dan McMonigle	3

How the Point System works:

- 1st - 4 points
- 2nd - 2 points
- 3rd - 1 point
- 1 point per entry,
- maximum 12 points per class

2013 Bowl Show Schedule

January:

Goldfish, Male Guppies, Minnows Danios & Rasboras

February:

Suckermouth Catfish, Swordtails, Characins

March:

Barbs, Mollies, Corydoras Aspidoras & Brochis

April:

Female Guppies, Platies, Aquatic Invertebrates

May:

Goodeids, Rift Lake Cichlids, Aquatic Plants

June:

Native Fish, Rainbowfish, Male Betta splendens

July:

Synodontis Catfish, Killifish, Angelfish & Discus

August:

AO New World Cichlids, Amphibians, Bog Plants

September:

Gouramis & Anabantoids, Sharks & Loaches, Photography

October:

Arts & Crafts, Marine Fish, All Other Old World Cichlids

November:

Exchange Report

Wayne Toven

I get lots of publications from various fish clubs in North America; I look for original informative articles by club members and review them. If anyone would like to read one of the articles listed below, let me know and I will get them a copy of it either by email or a hard copy at a meeting.

Greater Detroit Aquarium Society, Tropic Tank Talk: June 2013

L 010A, Red Lizard Cats, by Leslie Ernst

Smudge Spot Cory, by Mark Allar

Aspidoras albator, by Mark Allar

Aquarium Club of Lancaster County, Tank Tales: June 2013

DIY Tank Cover & Strip Light, by Gary Haas

Chromaphysemons – More Than

Just Bivs, by Joel Antkowiak

Circle City Aquarium Club, Fancy Fins: June 2013

Breeding Pseudocrenalabrus multicolor, by Bobby Sutton

Breeding Ophthalmotilapia ventralis "Chituta", by Roy Smith

Male or Female? How to Sex Cichlids, by Gary Kratochvil

Breeding Julidochromis ornatus (Albino) Golden Julie, by Chris Eichrodt

Cryptocoryne – Nurii Phang Mutated, by Joe Driskill

Greater Pittsburgh Aquarium Society Inc., Finformation: June 2013

Lamprichthys tanganicanus Breeding, by John Barnes

Pacific Coast Cichlid Association, Cichlid Blues: July 2013

Reflection: Cichlids and Sunfish, by Ron Coleman

Missouri Aquarium Society Inc., The Darter: July/Aug 2013

Aquascaping Without Plants, by Mickle Hellweg

Sponge Filters, by Mike Hellweg

Sprouting Barclaya longifolia (Hydrostemma longifolia) Seeds, by Gary Lange

Michiana Aquarium Society, Michi- ana Tropical Times: July 2013

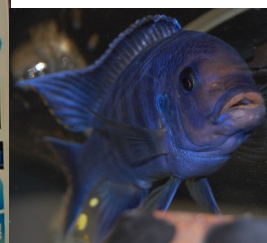

Phalloptychus januarius, the Barred Mosquito Fish, by Ben Slocum

Greater Pittsburgh Aquarium Society Inc., Finformation: July 2013

Golden Wonder Killifish and Outdoor Keeping, by Amanda Westerlund

Greater Cincinnati Aquarium Society, Fincinnati: July/Aug 2013

Ilyodon furcoides, by Steve Smith
