THE GREATER AKRON AQUARIUM SOCIETY

WHO ARE WE? We are a local group of aquatic enthusiasts. Formed in 1952, the Greater Akron Aquarium Society is a non-profit, non-commercial organization. Our membership ranges from the beginning hobbyist to the advanced aquarist with many years of experience. The goals of our club are to promote the care, study, breeding and exhibition of aquarium related aquatic life and to promote interest in the aquarium hobby.

MEETINGS: Our meetings are held on the first Thursday of each month at 8:00 p.m. at the Mogadore Community/Senior Center, 3857 Mogadore Road, Mogadore, Ohio. It is located East of Route 532 across from McDonald's in the former post office building. Visitors are always welcome, it costs absolutely nothing to attend a meeting and look us over.

MEMBERSHIP: The cost is only \$10 for adults, a couple or a family (includes children under 10 years of age) and \$5.00 for a junior membership (10 to 17 years) Membership provides an opportunity to socialize with others that share your interests, a subscription to our bi-monthly magazine and more.

AGENDA: Our meeting agenda is simple and informal. The meeting will begin at 8:00 p.m. with a short business meeting. Immediately following is the program for the evening which usually lasts about 45 minutes. Our programs consist of a speaker, slide program, movie or perhaps a panel discussion always on a particular subject related to the hobby or various species of fish. Following the program is a short refreshment break. After which the winners of the Bowl Show are announced, the Breeder's Award Program fish are auctioned and tickets are drawn for the raffle.

THE BOWL SHOW: Each month members can bring in fish for specific classes to compete for first, second and third place awards. The charge for each entry is only \$.25. Members also compete for annual awards by accumulating wins throughout the year.

BREEDER'S AWARD and HORTICULTURE AWARD PROGRAMS: members can receive recognition for spawning species of fish or propagating aquatic plants. All that is required is to turn in a minimum of six fry from the spawn that are between 30 and 90 days old. Members earn certificates for each species and can work towards plaques in different categories.

EQUIPMENT RAFFLE: The raffle table has such items as tanks, fish food and aquarium accessories that are donated by national manufacturers, area dealers or purchased by the Society. Tickets may be purchased by anyone attending the meeting. Save your losing tickets for the Christmas Party raffle.

ANNUAL SHOW: The Ultra-Aqua show is held during the summer at the Tallmadge community Center. This has become one of the largest all-species tropical fish shows in North America. It is an international gathering of hobbyists to display their fish in class competition, talk fish and to learn about the hobby from each other.

TANK TOPICS: is published on a bi-monthly basis for the members of the Greater Akron Aquarium Society. Articles and comments for this publication are welcome and encouraged. Such articles are to be submitted no later than the board meeting prior to publication. All articles may be reprinted as long as the author(s) and GAAS are given proper credit and two copies of the publication containing the reprint are sent to GAAS. Please send any correspondence regarding this publication to:

Editor/Tank Topics, P.O. Box 494, Akron, OH 44309-0494 or email to dwilliamson223@hotmail.com

President's Message

Page 3

Well hello fellow fish keepers,

Ultra aqua 2015 has come and gone and it was a very successful event, we had more entries, more people participating, a ridiculously large auction of just fish and plants around 1000 items were sold.

The Saturday vendor's table sale was busy also. A lot of very nice fish and other items were there for sale, some fish very rare and hard to come by. If you did not stop by for it then you really missed out.

The Saturday night dinner was fabulous, chicken and ribs that were so tender they just fell off the bone when you picked them up. Eric Bodrock was the

dinner speaker and he had a light and humorous talk, there was a lot of laughs. Many of the things he showed were strange but true. I know because I was there when most of it happened, rather scary thought!

I want to thank our member Steve for stepping up and auctioneering for us, when we lost our auctioneer after the awards. It was the first time for him ever, so thanks Steve.

We had a good time and I received several comments from people about how glad they were that we still have a show. Nice to hear someone appreciate it.

See you at the meeting

See ya soon

Bud White

Editor's Message

Dave Williamson

We survived another one! Ultra Aqua 2015 is just a memory now, except for the splinter in my thumb (just kidding!) But anyway, it all came together and we got through it just fine. The few stressful things (and there always are a few every year!) will be taken care of for the next one, just in time for something else to come up! It's a never ending learning experience!

Now for the standard thank-yous: First our judges, Rick, John, Eric and Dale, you guys did a bang-up job. Next up, the auctioneers: Eric (again) Scott, Ken, Don and Steve. That's one job I'll probably never attempt, more power to those who can do it! And last but not least a few who were there to do what needed to be done: Bud B. (bringing the trailer and entering auction info), Bud W. being there all weekend and handling the judging records by himself), Bill & crew for the food (enough said!) and Jeff for being there all weekend and taking care of whatever needed done.

Now the ever-present problem of what are we going to put into the next issue? This one is a no-brainer

since it's mostly filled with the show results. There would have been some pictures but I'm having an issue with the way the photos I took at the show were saved. Maybe one of these days I'll understand all this computer stuff, don't hold your breath though. Back to the problem at hand, and you all know where I'm going with this, we need articles for future issues. I've always taken great pride in the fact that almost all of the content we use in Tank Topics is locally produced by our membership. Are you in to help keep that happening? It really isn't all that difficult to write an interesting fish article. Are you interested in a specific species or family, then tell us about them. Has something interesting happened in your tank? Tell us about the steps it took to make that happen. Pretty simple concept really. Think about giving it a try!

Coming up in the next few months there will be a number of local (and not-so-local but still within driving distance) auctions and even a couple of shows. Think about attending one or more of them. You already know that auctions are great places to pick up new fish, plants and

equipment to expand or add new interest to your hobby. The further you're willing to travel, the more likely you are to find species you've not seen locally. Another potential benefit is for our club. Many times people are more willing to support a club's event when they have seen members of that club at one of their own events. So think about it, it can be a lot of fun especially if you can get together with a couple of your "fish buddies" and make a day of it. I highly recommend it!

I'll see you at the meeting!

BAP/HAP Report

Wayne Toven

Officially, summer is almost here, our annual Ultra – Aqua all species show is over for another year, and Father's Day is almost here, well probably by the time this publication is sent out even that will be past. So I finally got to put some fish outside into my 110 gallon tubs, water temperatures kept fluctuating too much but eventually leveled off at a decent reading. Now hopefully some of them will get to spawning out there, I need to get some more spawns to turn in for the Breeder Award Program. There are still 5 months left to get in the running for the Breeder of the Year, the November meeting and fall auction will be the last chances to turn in spawns for the 2015 year. There were lots of fish that went through the auction at the show, so I know a lot of people got new fish to work with, so get them in condition and get them spawning. I have also been dividing and repotting water lilies and irises, that seems to be a never ending process. We finally had our first submissions for the Horticultural Award Program one in May and one in June, surely more people are keeping live plants, especially with the advancing technology in the lighting area.

Bowl Show & Special Activities

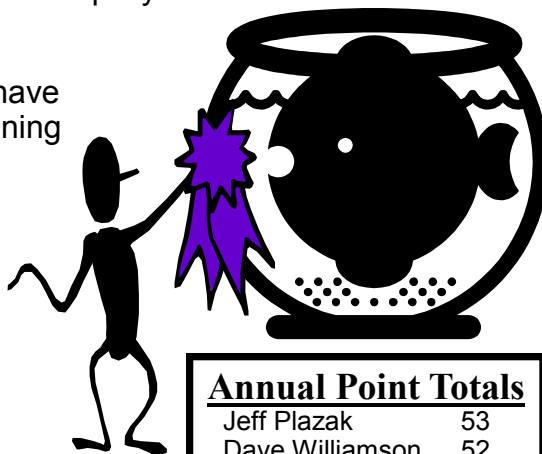

Don Youngkin

As the summer is heating up, so is the competition in the Bowl Show. Jeff Plazak is leading Dave Williamson trailing by only one point, while Wayne Toven is rapidly rising in the standings.

So far this year, 10 different people have submitted entries, with 5 of them winning at least one class.

There is still time to join in the fun. All are invited to participate. The Bowl Show schedule is listed on this page.

Annual Point Totals

Jeff Plazak	53
Dave Williamson	52
Wayne Toven	44
Ken McGill	17
Don Youngkin	15
Bill Koleszar	8
Charlie Suk	5
Nicole Youngkin	5
Alissa Harvey	3
