Odds and Ends Table for GAAS Members . For those GAAS members who have only a few items (limit of 3 items), GAAS will offer an alternative to renting a Swap Table so that hobbyists with fewer “must sell” items can also participate. The “Odds & Ends” items will be sold at a GAAS table at no cost to the seller. Here are the “Odds & Ends” Table Registration Form and Rules to participate in this method:

- Limit of 3 items from any seller (or household).
- No junk will be accepted.
- Seller will make 70% of the proceeds of the sale (just like an auction cut with 30% going to GAAS).
- Items must be clearly labeled with seller’s name and selling price.
- Fish must be bagged & clearly labeled with scientific or common name (no sick fish).
- Hard goods need to be marked as “working” or not and “complete” or not.
- Seller will fill out a registration form and a return envelope (if you expect to be paid).
- All items that are not sold by 3 PM become the property of GAAS subject to sale or disposal by GAAS.
- All sales are final.
- Payment by cash or check at the time of purchase.

For Swap Meet Vendors: The Greater Akron Aquarium Society has 3 auctions per year in this building under normal conditions, and the location is well known by many hobbyists in the Ohio/Pennsylvania area. The club plans on providing plastic table covers. To reserve your table(s)—first come, first reserved—please write a check made payable to **The Greater Akron Aquarium Society** and mail to **Rich Serva, 5407 Celeste View Drive, Stow Ohio 44224 (email: rjserva@gmail.com)**. When the tables are sold out, we will have a notice on the website.

- Table rentals are \$25 per table.
- The city of Tallmadge has limited this swap meet event to 17 tables to allow for adequate spacing. The tables are normal 8-foot rectangular tables, and there will be chairs.
- Setup time for vendors will begin at 11:00 am. You will have between 11AM and noon to visit other vendors.
- Contact Program Chair: program@akronfishclub.com or Rich rjserva@gmail.com to reserve your spot.
