

Spring / Fall Auction Rules:

Once an item is registered, it may not be withdrawn and no minimum bid items will be accepted, there is a 70/30 Split (70% proceeds to seller).

Please inspect all items as all sales are final, buyer beware. GAAS does not guarantee any item and is not responsible for any loss.

Bidders may choose to “Express” an item from a later color group to the current group for a small cash fee.

GAAS reserves the right to sell multiple items from the same seller as lots or to group items.

Any items that do not sell for at least \$1 will be considered donations to GAAS.

GAAS may refuse to sell animals that are diseased, deformed, too young to survive, regulated in the State of Ohio, or equipment that is hopelessly damaged.

Buyers may pay by cash as they go, or choose to run a tab and pay by cash, check, or credit card when they are ready to leave. There will be, however, a charge for any check returned for NSF.

All Items MUST be labeled with:

1. Seller's code (three letters such as initials, followed by a number; example ABC-1, ABC-2 and so on) Check with the registration desk to see if the letter code you want to use has not already been used by someone else. Note that although we will try to track down sellers, illegible or non-labeled items will be sold and considered a donation to the club.

2. The seller's name and phone number or email address.

3. Livestock should also be labeled as to Species (common and scientific names if possible), Quantity and Sex (if known).

4. Equipment should be labeled as to its condition (examples: works, noisy, leaks, new, etc.)

A four color dot system will be used to assure a fair mix of different seller's items.
